

Survivorship and more

11:30 – 1:40 pm Thursday 2 December

[Register here](#)

This session considers research and infrastructure priorities for cancer survivorship in Australia as well as survivorship among First Nations people, including needs assessments and research gaps. It includes both invited speakers and abstracts selected via peer review.

Chair: TBC

Session run times

11:30am – 11:35 Introduction and acknowledgement of country

INVITED SPEAKERS

11:35 – 11:55 Research and infrastructure priorities for cancer survivorship in Australia **Dr Fiona Crawford-Williams**

11:55 – 12:10 Cancer survivorship for Aboriginal and Torres Strait Islander people living with cancer **Dr Daniel Lindsay**

SURVIVORSHIP ABSTRACTS 10 MINUTE ORALS + 2 MINUTES FOR QUESTIONS

12:10 – 12:22 On the Receiving End: Have patient perceptions of the side-effects of cancer chemotherapy changed since the 20th century? **Professor Janette Vardy**

12:22 – 12:34 Do specialists use survivorship care plans? A qualitative analysis **Dr Cindy Tan**

12:34 – 12:46 Persistent symptoms, quality of life and correlates with health self-efficacy in adolescent and young adult survivors of childhood cancer **A/Professor Natalie Bradford**

12:46 – 12:58 Survivorship experiences of people with advanced colorectal cancer: A mixed-methods study **Chloe Lim**

12:58 – 1:10 5-FU induces acute neurodegeneration followed by persistent neuroinflammation: a new mechanistic hypothesis for the neurological complications of cancer therapy **Courtney Subramaniam**

MEASUREMENT ABSTRACTS 10 MINUTE ORALS + 2 MINUTES FOR QUESTIONS

1:10 – 1:22 Convergent and criterion validity of PROMIS depression and anxiety measures relative to legacy measures and structured diagnostic interview in cancer patients **A/Professor Kerrie Clover**

1:22 – 1:34 Development and validation of the Measure of Ovarian Symptoms and Treatment concerns for Surveillance (MOST-S26): an instrument to complement the clinical follow-up of women with ovarian cancer after completion of first-line treatment **Dr Rachel Campbell**

1:34 – 1:40 Wrap up and close
